“Imagine love on an intergalactic scale. Imagine love is the most powerful force in the universe. These assumptions underlie my work.”

Wolfram Alderson, Artist

Spark Arts Community Gallery, in the heart of the Castro, will present a unique three-day exhibition featuring artist Wolfram Alderson on July 28 - 30, 2017.

The Love Icon Show features multidimensional illuminated works by Alderson, inspired by themes and characters in his sci-fi epic, Pupazzo Universo, to be released in 2018. Alderson’s sculpture-paintings, shown in the dark, are aglow with light emanating from the work.

Spark Arts, operated by Aviva Kanoff and Angie Sticher, provides a dynamic community space for classes, workshops, art exhibits and community events.
